Hello, I'm **Phil Zulli**, former attorney to the Pennsylvania Bureau of Motor Vehicles and past Executive Director of the Pennsylvania Independent Automobile Dealers Association (P.I.A.D.A.) Having prosecuted used car dealers, messengers, issuing agents, inspection stations and trucking companies for 10 years, and having now defended them for 15 years, I am keenly aware of the fears and concerns of those engaged in the highly regulated automotive trade practice industry.

Retaining an experienced motor vehicle attorney whom you can call—who knows the laws and regulations and the people staffing the various governmental agencies—can greatly assist your business and your staff. **As client Timothy Ditonto wrote: "your expertise and connections were priceless."**

If the State Police, PennDOT or the Dept. of State suddenly show up on your lot, wouldn't it make business sense to have a pre-existing, pre-paid, relationship with an experienced motor vehicle attorney, whom you can promptly call for help? **Al Brody of the Auto Group wrote: "Your knowledge of car law has successfully guided us on a number of occasions. You have always responded timely and in our opinion economically."**

When you need quick help with a legal issue or a title, registration or licensing question (or quickly need a release of liability for a difficult customer) having on retainer a pre-paid motor vehicle attorney for just \$250 who you can call toll free for one full year is an exceptional deal!

This package deal will save you money in this difficult economy and give you a complimentary membership in the "Used Car Dealers Association". **The UCDA is dedicated to defending Used Car Dealers from adverse Government action and unfair competition from unlicensed curb-stoners.** Join me in this new endeavor to help Used Car Dealers reduce their legal fees and support an association that will actually fight for Dealers' rights and not just play footsies with the Government!

—Sincerely, **Phil Zulli**
